

- · Delivers clear and intelligible speech output.
- · Smart pairing and instant automatic cleaning channel scanning.
- Dual Transmitter Design: Allows both the main speaker and the assistant speaker to speak simultaneously, ensuring more comprehensive and detailed information delivery.
- Two-way duplex communication, enabling group members to converse effortlessly.
- · LCD screen provides clear display.
- · Wireless guide for chatting with up to three people at once

**TG-500** 

# **Superior Audio Quality + Smart Connectivity**

LM-17 Microphone

LM-18 Microphone

EP-01 Single-sided earphone

The TG-500 and TG-501 are designed to enhance your guided experiences. These systems offer practical upgrades, including Smart Pairing and instant automatic channel cleaning scanning, ensuring a seamless exploration experience.

#### Charger

TC-70

# **Advance Operation + Increase Talker**

## TG-501T Plus

LMR-18 EP-03 Headset Headphone

EP-01 Single-sided

## One transmitter and two receivers

Transmitter

TG-501T

TG-501R

TG-501 features two-way duplex communication, allowing group members to talk easily. Using the TG-501TPLUS can further add a third person to speak within the group, making it ideal for more interactive sessions, ensuring everyone stays connected and informed. With features like a clear LCD display and high-quality sound transmission, you'll be sure not to miss any important details while on the road. Whether you are visiting a museum, touring a factory, attending a seminar or taking a walking tour, these systems are the ideal companion for a rich, interactive guided tour experience.
